SPARE PARTS LIST

[SORG Rollstuhltechnik](#)

Revision: 18.04.2024 13:24:50

Dear customer,
in the following pages you will find a complete spare part list with all parts used to build our wheelchairs.

To ensure an accurate delivery of spare parts it is vital to provide the following information from the identification label in addition to the Article-Number (Art.-No.).

1. Serial number of the chair

The serial number enables us to identify the configuration of delivery of the specific chair in.

2. Seat width, seat depth and back height

The measures on the identification label are specified for the delivery configuration. If you changed any of these measures after delivery e.g. by growing the chair, please specify the actual new measures.

3. Lower leg length

We need the LLL to decide for the right version of several attachments which are connected to the LLL.

4. Frame colour

Please indicate the frame colour of the chair when ordering a powder coated spare part. Please note also if the finish alternative is shiny or matt.

5. Any other change after delivery (e.g. attachments)

We cannot know about changes after delivery. If you are not sure if such a change has any influence on the needed spare parts, please give us some details about it.
